**	Approximate location [no stones]

Notes:

A visual survey of Section B was made by Rosalie Puterbaugh to record names, and other noted information, from existing stones in the cemetery. Many graves are not marked, and records were destroyed in a Rectory fire (1930's). Rosalie, through contact with descendants as well as other sources, has added many names of those interred in unmarked sites. Although the plat appears to have many open sites, probably few grave sites in Section B are unused. The Plat is not to scale, and access rows between graves are not shown. (Plat documented in Arts & Letters V5.0 computer software 9/96 by G. Hanssen). A separate study, "Christ Church Burial Ground Documentation" September 1996, lists names of 56 persons buried in unknown sites (all Sections)
